OUR STORY

Our story began in **2003** when **PNL Holdings Limited**, one of the prominent corporate houses of Bangladesh, acquired **Halda Valley Tea Estate** with a vision to produce high quality tea. Today, we are privileged to grow exceptional quality tea for millions of tea lovers every day.

Halda Valley Tea Estate is one of the **model “A” category** gardens with **100% permanent irrigation** system and **99% clone tea plants**. It was awarded the **first prize** in Tree Plantation Category by The Government of Bangladesh in **2010**.

After 13 years of inception it became one of the **highest yielding garden** through its impeccable management, best quality plants, total plantation and production process etc. , which complemented by the world standard permanent irrigation system. It's per hector production is **3275 kgs** in **2016**, whereas, the national production average is 1320 kgs per hector.

Year wise Yield Per Hectare

Pioneer in Mordernized tea cultivation in Bangladesh

For the first time in Bangladesh we have introduced mordernized tea plantation.

- 🌿 We use **modern equipment** like **excavator, dumper truck, earth auger / drill machine** for land preparation for plantation and planting. As a result avarge **25 hectors** of vacant land came under plantation every year.
- 🌿 Halda is also using modern equipment like **plucking machine, electric power spray, electric looping machine, electric weeding machine** etc. that are not yet used in any other gardens in Bangladesh.
- 🌿 We have built more than **40 leaf shades** in various predetermined locations of the garden for collecting and sending the green leaf from the field to factory within a very short time for maintaining the quality of Tea.
- 🌿 There is also **well-equipped workshop** for repair and maintenance of the vehicles and equipment.

Halda Valley
is NO.
Tea Garden in

- 🌿 **Production capacity (Yield / Hc.)**
- 🌿 **Permanent irrigation system**
- 🌿 **Applying modern technology for plantation**
- 🌿 **Producing and exporting Dragon Well Green Tea**

Frist Ever Dragon well Green Tea produced in Bangladesh

We are proud to announce that, for the first time in Bangladesh HV has produced The **Dragon Well Variety Green Tea**. Production and processing of this high grade and highly admired Green Tea in China started on **2015**. But on 2016 we took it to a different level. We not only produced **1000+ Kilo** of this special variety, but also **Exported to Mainland China.....** which is undoubtedly a **Big Milestone** in the history of Bangladesh Tea Industry. In China our tea will be retailed as brand name **VENSION TEA**.

Standout ingredients :

1. Antioxidant **flavonoids** and other polyphenols , especially **catechins** (Good for your heart, memory, skin & more)
2. **L - theanine** (amino acid that may reduce stress)

What Today's research shows:

1. Lower risk to heart attack
2. May **lower blood pressure**, improve working memory and **protect bone health**.
3. Appears to fight infection, protect vision and **manage weight** in the lab.
4. Possesses strong anti-cancer property.

Fast Facts:

- ✦ Moderately processed tea leaves, steeped.
- ✦ Packed with nutrients
