Pedrollo Employee Premier Cricket League Held

The Pedrollo Employee Premier Cricket League was held at Faujdarhat Cadet College ground in the city of Chittagong on 9th-10th February, with PNL Holdings Limited and its concerned company. In the Premier League, eight teams were competed in knockout system. Participating teams were Team Victoria, Team Challengers, Team Dynamites, Team Titans, Team Riders, Team Kings, Team Vikings and Team Warriors. They were contested with 12 over version match in the first phase. Among them, Team Challengers, Team Dynamites, Team Titans and Team Warriors played semifinals. Two winners of the semi-finals, Team Challengers and Team Dynamites faced each other in 15-over final. In a highly competitive match, Team Challengers won the championship by 20 runs. Both Man of the match & Man of the Series was awarded to Mr. Abu Mohammad Yousuf. At the time, Pedrollo staff & high officials presented in the field congratulated the champion team through applauding. Then medal were distributed among the winners.

Do You Know?

- ◆ About 80 percent of our bodies are water.
- ◆ Just 1 percent of the world's water is useful for our use.
- ◆ If all the water in the world is just kept in a 4 liters Jug, then only 1 table spoon water will be allocated for you.
- ◆ Surprised to know, 97 percent of the world's water is saline. Absolutely undrinkable.
- ◆ Apart from the sea, 69 percent of the world's water are in the iced continent of Antarctica.
- ◆ In Europe and America, people drink beer more than water.
- ◆ If you can stop the water tap for only 1 minute while brushing your teeth, you can still save about 6 liters of water.
- ◆ If we lose one percent water from our body, we feel thirsty.
- ◆ 96 percent of the cucumber is water.
- ◆ When the water turns into frozen, it can extends up to 9 percent.

Keep The Track While Operating Water Pump

- ◆ Ensure the right voltage to operate the pump
- ◆ Check the fan & shaft before operating long term unused surface pump.
- ◆ Ensure that the water does not enter into the motor part of the surface pump.
- ◆ Use phase failure & over load relay while setting up three phase pump.

Picnic With The Employee

An enjoyable picnic with Pedrollo employees was held on 23rd March at the beautiful Tea Garden of Halda Valley. Employees from grade E3 and F were participated in the picnic. Participants were visited Halda Valley tea garden during the time. At the end , there was an attractive raffle draw for the participants.

In continuation, PNL Holdings Limited participated in the Job Fair held at the King of Chittagong on 17th January and Bangladesh-Korea Polytechnic Institute on 16th February which is an initiative of bdjobs.com. Many of the job seekers interest on company's stall were noticed during the time.

Stay Away From Unhygienic Water of Public Health Threat

Blue jars, cans and bottled water are used to meet the demand for pure water. But there is enough question about how safe these bottled water is. Many illegal establishments sell bottled water without approval. But they are not following the exact rules of bottling. As a result, various types of dirt and germs are found in their water. Expert says, that in view of the growing demand, a large market of bottled and jar water has been created across the country including Dhaka. Most of the people are now depending on bottled water to meet the demand of pure water. On this occasion, unscrupulous businessmen are selling open water in jar, can and bottle in the markets.

In an investigation it has seen that, it is risky to drink water directly provided by water suppliers in most areas. Even bad odor from the water can't be eliminated by boiling and filtering. Except some specific organizations in the country, the jar water provided by others are not mostly pure. Many organizations are selling water in bottle directly without proper purification. It is compulsory to use hydrogen per oxide to sterilize the jar, but in most

cases no chemical is used. In addition to refill the water, the filling machine should have to be used but water is refilled using filter only.

One of the simplest form of water purification is to boil. But not everyone knows the exact method of boiling. The effectiveness of drinking water is ruined if it is not boiled under proper way. According to the United States Environmental Protection Agency (USEPA), it is enough to seethe filtered water in full swing for one minute. We must adopt a careful method for water purification. In this case, the water can be purified with the help of improved treatment plants.

Pump Installed at The National Parliament House

World famous Italian brand SAER pump has been installed at the National Parliament House recently. The pump is provided by PNL holdings Limited. Engineers & technician of PNL Holdings Limited played the successful role to install the pump properly. Parliament house authority has expressed the satisfaction for the quality of the pump and service during installation.

Developing Relationships With The Customer

Developing relationships with the customer is one of the tools to be successful in business, because without a buyer, no business can be imagined. Business organizations are introduced to provide convenience to the customer. There is no doubt that customer are the valuable asset for any business. As well as customers satisfaction is also the blessings for business. Many buyers are interested to buy your products by seeing a customer. A buyer is not just a customer, but a combination of many buyers. So the product has to be improved and better. To develop relationships with the customer, you have to develop friendly relations along with business relationships. Friendly relationships with the customer will help to increase your business sales. Try to help the customers when they are in trouble. Collaborate them with solvable advice. This will draw a

soft corner in the mind of your customer that will increase your acceptability among them. The buyer will get more credibility in your product than your competitor. Your success on business depends on the presentation of your product that attracts the buyers.
